

NPCD v2.1 Entity Definitions

Entity Name	Entity Definition	
ADMISSION	The formal acceptance by a hospital of a patient who is to be provided with room, board, and continuous nursing services in an area of the hospital where patients generally stay at least overnight. (Ref: ASTM E 1384-9, 3.1.18)	
AMBULATORY-ENCOUNTER	A category of encounter for services provided as ambulatory care. Where ambulatory care is defined as "that preventive and/or corrective healthcare, provided in practitioner's office or clinic setting, on in the hospital on a nonresident basis (i.e., not requiring overnight stay and not included in the census). While many inpatients may be ambulatory, the term ambulatory usually implies that the patient has come to a location other than his or her home and has departed that same day." (Ref: ASTM E 1384-96, 3.1.2)	
APPOINTMENT-TYPE	Master table of valid VA appointment types for scheduling outpatient encounters. Appointment type relates to the eligibility under which the patient is seen.	
CARE-ENCOUNTER	Either an encounter or ancillary service visit. Encounter: 1) An instance of direct (usually face-to-face) interaction, regardless of the setting, between a patient and a practitioner vested with primary responsibility for diagnosing, evaluating and/or treating the patient's condition or providing social worker services. 2) A contact between a patient and a practitioner who has primary responsibility for assessing and treating the patient at a given contact, exercising independent judgment. (Ref: ASTM E1384-96, 3.1.11) Ancillary service visit: Appearance of an outpatient in a unit of a hospital or outpatient facility to receive service(s), test(s), or procedures. (Ref: ASTM E 1384-96, 3.1.4)	
DIAGNOSIS-CODE	Master table of possible diagnoses. Since there exist many diagnostic coding systems, each entry in this table requires both the identifier and name of coding system (Ref: ASTM E 1238-94, 6.6.2).	
DIAGNOSIS-CODE-TYPE	Master table of diagnostic coding systems (Ref: ASTM E 1238-94, Table 3).	
DISCHARGE	The termination of an inpatient admission. Identifies the circumstances under which the patient terminated the encounter.	
DISCHARGE-DIAGNOSIS	A ranked list of diagnoses according to some diagnosis coding scheme. Applies to the patient's entire length of stay.	
ENCOUNTER-ASSOCIATION	Links encounters. Outpatient service encounters can be linked to the encounter where the service orders were placed. Inpatient transfer encounters can be linked to the admission.	
ENCOUNTER-DIAGNOSIS	An associative entity for recording multiple diagnoses per encounter or ancillary service	
ENCOUNTER-PRACTITIONER	An associative entity for recording descriptive information about multiple individual providers per encounter or ancillary service.	
ENC-PROCEDURE	An associative entity for recording multiple procedures for an encounter or ancillary service.	
ENROLLMENT	A veteran patient enrolled for care at a Preferred Facility	
FACILITY	Master table of organizational providers. This is the primary organization or establishment responsible for the availability of health care services for this specific encounter. (Ref: ASTM E 1384-96, 9.12.2)	
HEALTH-FACTOR	An event or condition affecting the health status of a patient	
INPATIENT-ENCOUNTER	A category of encounter initiated by an inpatient admission	
PATIENT-DEMOGRAPHIC	The recipient of medical services provided by a VA medical center, clinic, nursing home, domicilliary, or fee provider. The individual's status may be inpatient or outpatient. Patients can be (under certain conditions of eligibility) a veteran, a veteran's family member, an active duty service person, VA employee, sharing agreement beneficiary, a humanitarian case, or other as specified by VA policy or law. (Ref: M-1, Part 1, Chapter 5.03 (16)) Patient information which can change during the patient's life-time; updated when the patient	
PATIENT-LOCATION	receives an encounter of Care. The location, in terms of a care unit and physical location within that unit, of an inpatient's	
	assigned bed.	
PRACTITIONER-TYPE	Master table of individual provider types classified by occupation, specialty and subspecialty. The table includes both licensed and non-licensed practitioners. (Ref: DISA X12N Healthcare Provider Taxonomy),	
PRIMARY-PROVIDER	An individual health care practioner, supported by a team, who is assigned responsibility for managing the healthcare of discrete populations (panels) of patients. (Ref: VHA Directive 98-048, Installation and Use of the VistA Primary Care Management Module, October 27, 1998)	
PROCEDURE-CODE	Master table of possible procedures. Since there exist many procedural coding systems, each entry in this table requires both the identifier and name of coding system (Ref: ASTM 1238-94, 6.6.2).	
PROCEDURE-CODE-TYPE	Master table of procedural coding systems (Ref: ASTM E 1238-94, Table 5).	
PURPOSE-OF-VISIT-REF	Master table of valid VA administrative reasons for outpatient visits. (Ref: M-1, Part I, Chapter 16, Appendix 16A, paragraph 3.l)	

Rows 1 to 24

NPCD v2.1 Attribute Definitions

Attribute Entity Name	Attribute Name	Attribute Definition
ADMISSION	Source-Of-Admission	A code that indicate where medical center patients
		come from and/or
		their status at the time of admission.
	Transferring-Facility	The unique designation for a VA facility from which
	,	the patient is transferring.
		Comment Text: Transferring-Facility is a rolename
		for the attribute Facility Number
		under the entity FACILITY describing an
		ADMISSION.
	Encounter-ID	
AMBLE ATORY ENGLISHED		Unique identifier for an encounter.
AMBULATORY-ENCOUNTER	Appointment-Type-Code	Code representing the regulatory authority for an
		outpatient appointment.
	Purpose-Of-Visit-Code	Code representing the administrative reason for an
		outpatient encounter.
	Location-of-Visit-Code	Code representing whether an encounter occurred
		at a VA facility.
	Ionizing-Radiation-Indicator	Indicates whether care received was related to a
	, s	patient's exposure to ionizing radiation during
		military service.
	Environmental-Contaminants-Indicator	Indicates whether care received was related to a
	Environmental Contaminants indicator	patient's exposure to toxic substances or
	+	1.
	E ID	environmental contaminants during military service.
	Encounter-ID	Unique identifier for an encounter.
	Agent-Orange-Indicator	Indicates whether care received was related to a
		patient's exposure to Agent Orange or other
		herbicide during military service in Vietnam.
	Service-Connected-Indicator	Indicates whether care provided to a veteran patient
		was related to an injury or disease incurred or
		aggravated during active military service.
APPOINTMENT-TYPE	Appointment-Type-Code	Code representing the regulatory authority for an
	''	outpatient appointment.
	Appointment-Type-Description	Text description of the regulatory authority for an
	7 tppomimoni Typo Booonpaon	outpatient appointment.
CARE-ENCOUNTER	Means-Test-Indicator-Code	Code representing a patient's priority for care.
OARE ENGOGIVIER	Patient-Identifier	A facility-specific unique identifier for a patient.
	DSS-Identifier	Code representing the type of treatment provided in
	F 334 O 45	an outpatient clinic.
	Facility-Suffix	The designation of a sub-station of a VA facility.
	Facility-Number	The unique designation for a VA facility.
	Encounter-Eligibility-Code	Code representing the basis of a patient's eligibility
		for the services provided in a clinical encounter.
	Encounter-Start-Date	The date an encounter began.
	Homeless-Indicator	Indicates whether patient was flagged as homless in
		the Social Work Package Special Patient Population
		field.
	Processing-Date-Time	Date and time an encounter record was processed
	Treesesing Bate Time	at the originating facility.
	Encounter-ID	Unique identifier for an encounter.
		Date and time an encounter record was changed in
	AAC-Updated-Date	
DIAGNOSIS-CODE		the database.
	Diagnostic-Code	Code representing the condition, problem, or reason
		for an encounter.
	Diagnosis-Description	Text description of the condition, problem, or reason
		for an encounter.
	Diagnosis-Code-Type	Code representing a methodology for encoding
		conditions, problems, and reasons for encounters.
DIAGNOSIS-CODE-TYPE	Diagnosis-Code-Type	Code representing a methodology for encoding
	3	conditions, problems, and reasons for encounters.
	Diagnosis-Code-Type-Description	Text description of a methodology for encoding
	2 agricolo codo i ypo-boscription	
		conditions, problems, and reasons for encounters.

Rows 1 to 30

Attribute Entity Name	Attribute Name	Attribute Definition
DISCHARGE	Disposition-Place-Code	Code representing the type of facility or environment
		where the discharged patient will continue care.
	Encounter-ID	Unique identifier for an encounter.
	VA-Auspices-Indicator	A code that determines whether the patient was
		transferred for further care under VA auspices.
	Disposition-Type-Code	Code representing the status of a patient at
		discharge.
	Discharge-Date	The date the episode of care ended, started by an
		admission.
	ASIH-Days	The total number of days patient was "absent, sick
		in hospital" if stay was not in the hospital.
	Receiving-Facility	A facility code and facility suffix code for the facility
		that receives
	Occurs of Booth	the patient.
	Cause-of-Death	Code which best describes either the immediate or
	Commonweller Brazina Status	the ultimate cause of a patient's death.
	Compensation-Pension-Status	A code that indicates whether a patient is receiving
		care for service connected condition and which relates that determination to the benefits the patient
		·
		is receiving from VA. Must be crossed checked against the category of beneficiary field in the
		<101> transaction. For the following Means Test indicators these edits are performed: N - 8 AN
		- 5 or 7 B or C - 7 AS then POW must equal
		4-9 COB must be 0 or 1 AO must be 3 or 4 IR
		must be 2 - 4 C&P = 1-4, or 6
DISCHARGE-DIAGNOSIS	Encounter-ID	Unique identifier for an encounter.
DIGGLIARGE BIAGROOM	Diagnosis-Code-Type	Code representing a methodology for encoding
	Diagnosis Code Type	conditions, problems, and reasons for encounters.
	Diagnostic-Code	Code representing the condition, problem, or reason
	2.ag.100.10 0000	for an encounter.
	Discharge-Diagnosis-Ranking-Number	The level of severity of the diagnosis as determined
		by judgment at discharge.
ENC-PROCEDURE	Procedure-Set-ID	Sequential number for a procedure within an
		encounter.
	Procedure-Date-Time	Date and time a clinical procedure was started.
	Procedure-Code-Type	Code representing a methodology for encoding
		clinical procedures.
	Procedure-Code-Ranking	Not defined.
	Procedure-Code	Code representing a clinical procedure performed
		during an encounter.
	Encounter-ID	Unique identifier for an encounter.
ENCOUNTER-ASSOCIATION	Primary-Encounter-ID	Unique identifier for an encounter.
	Secondary-Encounter-ID	Unique identifier for an encounter.
ENCOUNTER-DIAGNOSIS	Encounter-ID	Unique identifier for an encounter.
	Encounter-Diagnosis-Ranking-Number	Indicates whether a given condition, problem, or
		reason was the primary or a secondary reason for
		an encounter.
	Diagnosis-Code-Type	Code representing a methodology for encoding
	B	conditions, problems, and reasons for encounters.
	Diagnostic-Code	Code representing the condition, problem, or reason
ENICOUNITED DDAGTITIONITE	Francisco ID	for an encounter.
ENCOUNTER-PRACTITIONER	Encounter-ID	Unique identifier for an encounter.
	Practitioner-Type-Code	Code representing a health care practitioner's
	Engulator Prostitioner Cat ID	occupation and area of specialization.
	Encounter-Practitioner-Set-ID	Sequential number for a practitioner within an
	Encounter Practitioner Bala Code	encounter.
	Encounter-Practitioner-Role-Code	Code representing whether a health care practitioner
		was the primary or a secondary provider in an
	Encounter-Practitioner-ID	encounter. A facility-specific unique identifier for a health care
	LICOUNTEI-FIACTIONEI-ID	practitioner.
		practitioner.

Rows 31 to 60 2

Attribute Entity Name	Attribute Name	Attribute Definition
ENROLLMENT	Effective-Date	The date that a Veteran's enrollment status
		changed
	Facility-Suffix	The designation of a sub-station of a VA facility.
	Patient-Identifier	A facility-specific unique identifier for a patient.
	Primary Facility	The unique designation for a VA facility.
	Enrollment-Status	Code representing the status of a veteran's
		application for enrollment in the VHA Uniform
		Benefits package.
	Enrollment-Priority	Code representing the priority level assigned to a
	Emolimental honey	veteran's application for enrollment in the VHA
		Uniform Benefits package.
	Farellment Date	
	Enrollment-Date	The date an application for enrollment was signed or
EACH ITY	2: 2 . !	submitted.
FACILITY	State-Code	Code representing the state where a facility is
		located.
	AHA-Identifier	Unique identifier assigned to a facility by the
		American Hospital Association.
	Network-Identifier	An idenfier for a Veterans Integrated Service
		Network (VISN).
	Facility-Suffix	The designation of a sub-station of a VA facility.
	Facility-Number	The unique designation for a VA facility.
	Facility-Name	The name of a VA facility.
HEALTH-FACTOR	Factor-ID	Identifier for a Veterans Health Administration
		defined health factor.
	Assessment-Date-Time	The date and time the patient was assessed for this
		health factor.
	Patient-Identifier	A facility-specific unique identifier for a patient.
	Factor-Begin-Date	The onset date of this health factor for this patient
	Factor-Observer	The practitioner who assessed this health factor.
	Factor-Source	The designation of a sub-station of a VA facility.
	Factor-Status-Code	A code indicating the status of this health factor
		observation. Values include: patient reported;
		unconfirmed; confirmed; not available.
	Factor-Status-Date-Time	The date and time the status of this factor was last
	Tadioi Gialdo Bale Time	changed.
	Factor-Value	This is the result of the observation.
INPATIENT-ENCOUNTER	Axis-IV-Code	Code representing a patient's psychiatric state using
IN ATIENT-ENGOGNIER	AXIS-TV-OOUC	the Severity of Psycosocial Stressors (Axis IV).
	Service-Connected-Indicator	Indicates whether care provided to a veteran patient
	Service-Connected-maicator	·
		was related to an injury or disease incurred or
	For incommental Octobridation to the Poster	aggravated during active military service.
	Environmental-Contaminants-Indicator	Indicates whether care received was related to a
		patient's exposure to toxic substances or
		environmental contaminants during military service.
	Agent-Orange-Indicator	Indicates whether care received was related to a
		patient's exposure to Agent Orange or other
		herbicide during military service in Vietnam.
	Encounter-ID	Unique identifier for an encounter.
	Ionizing-Radiation-Indicator	Indicates whether care received was related to a
		patient's exposure to ionizing radiation during
		military service.
	Provider-Treating-Specialty-Code	A code designating the category of care provided to
	Tremaer freating epositing code	the patient.
PATIENT	Patient-Identifier	A facility-specific unique identifier for a patient.
	Pseudo-SSN-Indicator	Indicates whether a patient's SSN is a temporary
	i Seudo-Sorv-iridicator	pseudo-social security number.
	Dago Codo	1 .
	Race-Code	Code representing the race and ethnicity of a
		patient.
	Address-Line-1	Number and street of a patient's primary mailing
		address.
	Death-Date	Date a patient died.
	City	City of a patient's primary mailing address.
